FIRE WARDEN'S REPORT

In looking over the records I find that over one-third of the fires in District One in 1954 were from incinerators and burning without first securing a permit from the forest fire warden of the town where fire occurred. As all these thirty-three fires were in violation of the law, all of us citizens who own homes or rent property should try to the best of our ability to cooperate with the forest fire warden and fire chief in the town or city in which we live.

After the snow leaves the ground and the spring season arrives we all like to get out of doors and start to clean up the grounds and back sheds so before we start to burn, let's contact the forest fire warden of the town in which we live and get his view and permit.

GUY O. HOLLIS
District Fire Chief

35. Permits. (b) No person, firm or corporation shall kindle or cause to be kindled any fire or shall burn or cause to be burned any material, and no city or town shall kindle or maintain a fire or a public dump, in or near woodlands, pasture, brush, sprout, waste, or cut-over land, or where fire may be communicated to such land, except when the ground is covered with snow, without first obtaining a written permit from the forest fire warden of the town where the burning is to be done unless the same is in the presence of the warden or his agent.

36. Liability for Fires Without Permit. Any person causing or kindling a fire without permit of the forest fire warden, when such permit is required, and any person by whose negligence or the negligence of his agents any fire shall be caused, shall be liable in a civil action for the payment to the town, or the state or both, of the expenses incurred by the forest fire warden or deputy warden in attending or extinguishing such fire.

LIBRARIAN'S REPORT

The year 1954 saw the circulation of books continuing high—with our total circulation 2,760. The children, despite more TV sets in town, took out 1,581 books. Many of these were left at school, where we have no record of how many times they were read. With interest in reading so high among the students, we hope to be able to build a better library of non-fiction for this age group. Their interest in science and biography increases each year. Our books in these categories are either out-dated or too difficult. If we should be able to receive state aid, for which we are applying, we would use it in this area. The adults borrowed 1,179 books, of which 557 were non-fiction.

The Australian collection of 33 books which we had on loan from the State Library for 8 weeks was very much enjoyed. It included fiction and juvenile books. The circulation was very good.

We added 72 books to the library—30 for the adults, 42 for the children. Of these 27 were gifts.

During the past year we have been visited by the Bookmobile six times. The number of books we have been able to have in our library through this source is approximately 750. This is, without doubt, the biggest help we receive. Without it our library would not be able to give you the service you want. With its help, we are able to supply our borrowers, children and adults, with the newer, more popular books.

Respectfully submitted,

BARBARA A. HEDMAN,

Librarian

REPORT OF THE SCHOOL BOARD

January 31, 1955

To the Citizens of the Town of Temple, New Hampshire

The Board of Education of Temple respectfully submits its annual report with that of the Treasurer, Superintendent and Auditors.

The crowded conditions have been eliminated by the new school addition which was completed in time for the scheduled school opening in September.

We appreciate the help and advice of Mr. John Maretti and Mr. Maurice Stone on this building program. Their knowledge of construction was a valuable aid to us and we thank them for all the time and effort which they put into this project.

The construction was under the supervision of Tracy and Hildreth, Architects, of Nashua.

The bids for construction of the addition were as follows:

David W. Davidson	\$29,444.00
P. M. MacKay and Sons, Inc.	33,047.00
Elgin Burt	31,596.00
MacMillin Company	24,657.00

The MacMillin Company's bid was accepted and the plans and specifications were changed sufficiently to bring the price down within reach of our budget.

Appropriation		\$24,000.00
Contract	\$22,166.00	
Modifications (heating system, teacher's room, 20 year roof)	305.00	
Architect's fee	1,010.00	
Furnishings	696.32	
	\$24,177.52	
Rebate on heating system	160.00	
		\$24,017.52

In addition to the \$696.32 shown above for furnishings, twelve desk units were purchased for replacements in the upper room.

We were fortunate in obtaining the services of Mrs. Hammond as teacher in the new room—grades 3, 4, and 5. She has been an excellent addition to our very capable staff of teachers, Miss Stone, Mrs. Carter, and Miss Edwards.

You, as taxpayers and parents, deserve much credit for all you have done to make our school more efficient.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Temple:

I respectfully submit my eighth annual report as your Superintendent of Schools.

Staff

We were fortunate in being able to obtain the services of Mrs. Alice Hammond, a teacher with a fine educational background and varied teaching experiences, to teach the grades assigned to the new classroom. The other members of the staff remain the same, namely Mrs. Lucy Carter, who continues to teach grades one and two, Miss Helen Stone grades six, seven and eight, and Miss Ethelyn Edwards, Music.

Instruction

The addition of the new facilities has done all that was expected in giving us an opportunity to do a better job of teaching. The numbers of pupils in each room has been reduced as well as the grades for which a teacher is responsible. More individual attention to pupils' needs has been made possible and the work of the grades is moving along easily and effectively. Mrs. Carter at the beginning of the year started out with twenty-two pupils in grades one and two; Mrs. Hammond with twenty-eight in grades three, four and five; Miss Stone with twenty-seven in grades six, seven and eight, a total school enrollment of seventy-seven pupils in grades one through eight.

The educational program remains essentially the same as last year. While we offer no so-called "fads and frills", we feel that a fine background in the fundamentals is being effectively developed. Special emphasis has been given this year to the teaching of handwriting and spelling and good results are being obtained.

Health supervision of our children is being directed by Miss Sybil Beatham, School Nurse, with the assistance of the School Doctor, Dr. Claire Cayward. Details of this work are revealed in the report of the School Nurse.

Building and Grounds

The new addition has given us space that was sorely needed, not only in providing classroom space but in providing additional Cafeteria and Kitchen space, storage space and a room that can be used for health inspections. At this writing the combination Nurses' and Teachers' Room has not been completed. However, the School Board has provided the sum of \$75 in their budget for 1955-56 to paint this room and it is hoped that the next step will be to provide toilet and lavatory services.

There is still some finish grading to be done and it is hoped that this will be done during the summer months. This will involve adding loam and seeding certain areas adjacent to the building. The School Board has provided a sum of \$100 in its 1955-56 budget for this purpose.

The School Board and Building Committee are to be commended for their fine work in planning and erecting this building. It is a functional plant and a fine addition esthetically to the town of Temple. Many building committees have visited our school from various towns and the general comment has been, "How did you get so much for the money?" The answer is good planning and good supervision on the part of all concerned. The town has reason to be proud of its school plant.

Finance

The School Board's Budget for the school year 1955-56 calls for an appropriation of \$25,655.79, exclusive of any action that may be taken on the three special articles in the Warrant. This is an increase of \$2,551.77 over that of last year. The major increases are reflected in the following areas; Tuitions — \$1310; Teachers' Salaries—\$569; Interest Charges—\$220; Transportation —\$170; Teacher Retirement—\$209.21; Repairs and Replacements —\$107; and Capital Outlay—\$100. The major decrease in the budget appears in the item of Insurance. The policy premium will be paid out of the '54-55 budget covering a three year period, consequently this item realizes a decrease of \$323 for the school year 1955-56.

The largest increase appears in tuitions. We will have approximately twenty-one pupils attending high school next year — possibly 12 going to Peterborough @ \$310 and nine to Appleton Academy @ \$280.

The increase in teachers' salaries is an attempt to recognize ability and service. The increase in transportation is necessitated by the increased distance involved in the bus travel to pick up all children for whom the district is legally responsible for transporting. The increase in repairs and replacements is due largely to the necessity of replacing a portion of the radiator in the Upper Grade Room. Several attempts have been made to weld several sections of the radiator on the window side of the room. The metal is so thin that a weld will not hold. This has been in this condition for the past two years and it is conceivable that this radiator could become inoperative at a time when it was most needed. All other items of increase are statutory obligations or self-explanatory.

Special Articles

Article 8 requests a deficiency appropriation of \$144 for special instruction that had to be provided for one child who has been confined to her home because of illness. This instruction is a statutory obligation upon the district and is described in the New Hampshire School Laws, Chapter 134, Section 43.

Article 9 requests a deficiency appropriation of \$170 for the purpose of paying for transportation in addition to that which was contracted. At the present time thirty-five pupils are being transported, five more than the capacity of the bus, necessitating a second trip to pick up the overflow.

Article 10 is inserted by request and to give the voters of the district an opportunity to make any changes they desire in the present transportation program.

Conclusion

It has been a pleasure to work with the Temple School Board and the parents and citizens of Temple. I appreciate the cooperation that has been extended to me by all of those who are concerned with the education of children.

REPORT OF SCHOOL NURSE

As School Nurse in the Temple Public School I made sixteen visits during the year. Chicken Pox was prevalent during the month of June and there were many colds during the winter months but no other communicable disease was found.

I used the Snellon Chart in screening the pupils for vision difects and ten defects were found. Six children have been treated. The group audiometer was used in testing the hearing and it was found that six need to be re-tested by the single audiometer.

Mrs. Mildred Aiken, New Hampshire Tuberculosis Association Nurse, gave the pupils the Patch test for tuberculosis susceptibility and there were only two reactions found. These two children were referred to the X-Ray Clinic to be held in June. I assisted in arranging for the clinic and also the follow-up.

I made four home visits and held four other consultations with parents about their children during the year.

Dr. Cayward examined the children in October and found the following defects:

Enlarged tonsils	8
Enlarged cervical glands	2
Speech impaired	2
Defective teeth	15

I maintained the records and also assisted the Doctor in his examination. The children were weighed and measured and four were found to be overweight.
